

# DEVON BULL

SOFTWARE DEVELOPER

## PROFILE

Extremely motivated to constantly develop my skills and grow professionally. I enjoy React, working in teams, and building products. I hope to put my Economics background to good use through data analytics and visualization.

## PROJECTS

- **Weatherly** || [weathrly-dbull.herokuapp.com](https://weathrly-dbull.herokuapp.com)  
First project using React & API calls
- **Voter Data** || <https://voter-data.herokuapp.com/api/v1/voters>  
Took 56k real Colorado voter records from a raw txt file and made a REST API. First time using MongoDB.
- **Breakout** || [dbull7.github.io/breakout/](https://dbull7.github.io/breakout/)  
Recreated original Atari Breakout. First project to use ES6 and Canvas.

## SKILLS

Javascript ES6	MongoDB
React	CircleCI
Enzyme	TDD
Express	Mocha/Chai
Postgres	CSS
React Native	Git Workflow
